

# Airless Sprayplaster Machine

GB400/500RS

## Technical details

GB400RS 1.5 KW

Rated voltage: 230 Volt

Normal power: 1.5 Kw

Max. pressure: 80 bar

Hose length: 15 meter

Transmission: Direct connected  
variable speed

Capacity: 6 liter/min

Volume hopper: 5 bags

LxWxH : 120x75x80 cm

Gewicht: 75 Kg

GB500RS 2.2 KW

Rated voltage: 230 Volt

Normal power: 2.2 Kw

Max. pressure: 120 bar

Hose length: 20 meter

Transmission: Direct connected  
variable speed

Capacity: 6 liter/min

Volume hopper: 5 bags

LxWxH : 120x75x80 cm

Gewicht: 75 Kg

## Innovation

- High reliability by using high-pressure screw-pump
- No valves or flaps
- easy operation
- complete stainless
- unique blending system allows
- very thick patches
- material savings can be reached because the material can go back in the machine hopper
- complete with pump hopper.
